Hiring Team
CrunchTutor.com

Dear Hiring Team,

I am writing to express my interest in the AP Calculus AB/BC Tutor position with CrunchTutor. With my background in aerospace engineering, advanced mathematics, and teaching and tutoring, I believe I would be a strong fit for helping students strengthen their calculus skills, problem-solving abilities, and confidence.

My academic and professional background has required extensive use of mathematics throughout my engineering education and research. I completed Calculus I–III and continued into higher-level coursework involving differential equations, linear algebra, nonlinear systems, numerical methods, optimization, and other advanced applied mathematics. I also took both AP Calculus AB and AP Calculus BC in high school and earned a score of 4 on both AP exams.

I have experience teaching and tutoring mathematics and STEM subjects as a high school mathematics teacher, university teaching assistant, STEM instructor, and private tutor in mathematics and physics. These experiences have taught me how to break down difficult concepts into intuitive steps, adapt explanations to different learning styles, and help students understand why a method works rather than simply memorizing procedures.

For the requested application information:

- **Academic Profile:** Engineering background with extensive coursework and experience in advanced mathematics and applied STEM fields.
- **Relevant Mathematics Coursework:** Calculus I–III, differential equations, linear algebra, nonlinear systems, numerical methods, optimization, and additional advanced engineering mathematics.
- **Teaching Experience:** High school mathematics teaching, university teaching assistant experience, STEM instruction, and private tutoring in mathematics and physics.
- **AP Calculus Scores:** AP Calculus AB – 4; AP Calculus BC – 4.
- **Weekly Availability:** Weekdays after 1:00 PM Pacific Time and weekends before 1:00 PM Pacific Time.
- **AP Calculus Preference:** Both AP Calculus AB and AP Calculus BC.
- **Tutoring Format Preference:** Available for both one-on-one and small-group tutoring.

I would be excited for the opportunity to work with CrunchTutor and help students develop a strong understanding of calculus while preparing for their coursework, exams, and the AP Calculus exam. Thank you for your time and consideration. I look forward to hearing from you.

Sincerely,

Scott Nguyen
